REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a hydrogenation process as claimed in which the feed is first contacted with a precious metal catalyst followed by contact with a metal oxide and a nickel catalyst either in combination or sequentially or in which the feed is first contacted with a mixture of precious metal catalyst and metal oxide followed by contact with a nickel catalyst. There is no suggestion in the Miller reference to include the claimed metal oxides in the process at the claimed locations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter D. Griffin whose telephone number is (571) 272-1447. The examiner can normally be reached on Monday-Friday 6:30 to 4:00 with alternate Fridays off.
